**Part B**      **Additional Information**

These Final Terms must be read in conjunction with the Base Prospectus dated 12 June 2012 (including the documents incorporated into the Base Prospectus by reference) (the "**Base Prospectus**") as supplemented from time to time. Terms not otherwise defined herein shall have the meaning given in the General Conditions set out in the Base Prospectus. Full information on the Issuer and the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus.

The Base Prospectus (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Securities. Accordingly any person making or intending to make an offer of the Securities may only do so:

- (i) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer; or
- (ii) in those Public Offer Jurisdictions mentioned under the section entitled "Categories of potential investors to which the Securities are offered and whether tranche(s) have been reserved for certain countries" in Part B below provided such person is one of the persons mentioned in such section and that such offer is made during the Offering Period specified in Part B below.

The Issuer has not authorised, nor does it authorise, the making of any offer of Securities in any other circumstances.

The expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

## **RISK FACTORS AND EFFECT OF PERFORMANCE OF UNDERLYING:**

Investors should review carefully the Risk Factors section in Part II of the Base Prospectus and the effect of the performance of the Underlying on the Securities set out below.

The Securities represent an investment similar to a direct investment in the Underlying. In contrast to a direct investment in the Underlying, the Securities offer the possibility of increased returns by a leveraged participation which is equal to two times the extent (if any) to which the Final Reference Level, which is the value of the Underlying on the Valuation Date, exceeds the Initial Reference Level but subject to a specified Maximum Amount set by the Issuer at EUR 280. A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

Accordingly, investors may only receive a positive return on their initial investment at or about the issue date if the Final Reference level is greater than the Initial Reference Level. Such positive return will be equal to twice the positive performance of the Underlying with respect to the value of the Underlying at issue date but it cannot exceed the Maximum Amount, regardless of the potential over performance of the Underlying.

Otherwise, if the Final Reference Level is less than the Initial Reference Level, investors will be directly exposed to the performance of the Underlying and, therefore, receive no return on their investment made at or about the time of issuance of the Securities. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

Finally, after the admission to trading on the secondary market, investors may receive a positive return on their investment if the amount received after a sale of the Securities in such secondary market during their term exceeds the price originally paid for the Securities.

### **Further Information Published by the Issuer**

The Issuer does not intend to provide any further information on the Underlying.

## **RESPONSIBILITY**

The information relating to the Underlying contained herein has been accurately extracted from the Reuters page as provided in the definition of Underlying above. The Issuer accepts responsibility for the accuracy of such extraction but accept no further or other responsibility in respect of such information.
